Experience

Marketing Intern – KeyEncoders Demonstrated leadership by promoting programs among students and communicating course benefits and career outcomes.

IBM Quantum Computing Trainee – SENSE School, VIT Vellore Oct 2025 – Dec 2025 Designed and simulated quantum circuits using Qiskit, implementing Deutsch–Jozsa and Grover’s algorithms to compare quantum and classical performance.

Projects

ConnectChat – Real-Time Chat Application GitHub

Tech Stack: MongoDB, Express.js, React, Node.js, Redis

- Developed a scalable real-time chat system using Socket.IO with low-latency messaging.
- Implemented Redis-based user tracking and efficient message handling with a responsive UI.

Sanjeevani-AI (SafeBot) GitHub

Tech Stack: Python, IndicBERT, PyTorch Lite, Android (Kotlin)

- Implemented an offline suicide risk detection system with on-device IndicBERT inference.
- Achieved 88.9% classification accuracy with high recall while ensuring strict privacy via on-device data processing.

Persona RAG Chatbot GitHub

Tech Stack: Python, FastAPI, ChromaDB, Sentence Transformers, GPT4All

- Developed a persona-aware Retrieval-Augmented Generation (RAG) chatbot using vector embeddings and semantic retrieval.
- Built a modular FastAPI backend and evaluated performance using standard NLP metrics.

Hand Sign Detection Using Fuzzy Logic (ASL) GitHub

Tech Stack: Python, OpenCV, NumPy, Scikit-learn, Fuzzy Logic

- Built a real-time American Sign Language hand sign detection system using computer vision for gesture capture and preprocessing, Implemented fuzzy logic based classification to handle uncertainty in hand gestures and improve recognition accuracy.

Education

Integrated M.Tech. in Computer Science and Engineering, VIT University, Vellore 2022 – 2027
CGPA: 8.51 / 10.0

Intermediate Education (Class XI – XII), Narayana Junior College 2020 – 2022
Aggregate: 95%

Technical Skills

Programming Languages: Python, C++, C, Java

Web Technologies: HTML, CSS, JavaScript (Basics), React

Backend APIs: REST APIs, FastAPI

Database: MySQL, SQL

Libraries: Pandas, NumPy

Testing: Postman, API Testing

DevOps MLOps: Git, GitHub Actions, Docker (Basics), CI/CD Concepts, Machine Learning

Core Concepts: DSA, Operating Systems, DBMS, Computer Networks (TCP/IP), OOPs, AI

Cloud Systems: AWS (S3, EC2 Basics), Cloud Computing Fundamentals

Software Engineering: SDLC, Agile Methodology (Basics)

Publications

Sanjeevani-AI: Passive Suicide Risk Detector & Helper
